Intended Semester
Summer 2020

Education:
Software Development
GPA: 3.16
Senior BSIT
Credits — 81/120

Contact:
513-667-2371
boylsojh@mail.uc.edu

Address:
7056 Sprucewood Ct.
Cincinnati, OH 45241

Objective:
I am a full-stack developer looking for a position (Summer 2020) in front-end development or web design that will allow me to flex my creative muscles and solve problems.
I have a passion for creating websites that are beautiful, easy to use, and use the best development practices for efficiency and modularity.

Toolbox:

— React	— HTML, CSS, JavaScript	— SCSS / LESS
— Adobe Suite	— Python	— Docker
— GraphQL	— SQL	— DevOps

Professional Experience:

04.19 — present

Kinetic Vision — Full Stack Developer
— Responsible for the development and maintainance of a small set of applications
— Developed a fully-functioning front-end with React.js

04.19 — present

IT Solutions Center — Full Stack Developer
— Responsible for the development and maintainance of an existing project
— Worked with a front-end in Angular.js, and an API and Microservices in Express.js
— Developed Reporting and Data Pull processes

Projects:

06.19 — 09.19

Headspace [Kinetic Vision]
— Developed a fully-functioning front-end with React.js
— Focused on usability and responsivity of components
— Utilized Apollo GraphQL, Graphene-SQLAlchemy, and Docker

10.19 — 01.20

mattboylson.com [Personal - mattboylson.com]
— Worked closely with client to develop a personal portfolio site in React.js
— Deployed, managed, and secured the site with Heroku cloud platform

10.19 — 01.20

joeboylson.us [Personal - joeboylson.us]
— Developed a personal website using React.js
— Aimed to utilize design and development best practices
